sponsored by

Evidence
knowledge in Health

**Webinar for members of EIPG
in conjunction with PIER and University College Cork**

Overview of the Webinar

This webinar translates Europe's regulatory momentum on decentralized trials into a concrete, pharmacy-ready playbook. Community pharmacies act as key players in:

- observational/RWE studies
- drug studies—from low-interventional designs to decentralized elements in interventional trials;
- medical device evaluations, including usability, performance, and PMCF;
- supplements/FSMP projects.

Building on recent pharmacy studies and European regulation, we'll map roles and responsibilities across sponsors, CROs, investigators, and pharmacists, with GDPR-by-design data flows and pragmatic SOPs.

Learning Outcome

At the end of this webinar, attendees will be able to learn:

- Select study types best suited to pharmacy settings and avoid poor fits.
- Identify which decentralized trial activities are appropriate for community pharmacies.

About Speaker

Biotechnologist by education with a PhD in neurodegenerative disorders, Barbara moved from academia to the clinical research environment almost 10 years ago, serving in different roles in Clinical Operations. Barbara currently supports Evidence's partners with clinical trial set-up to align with the most advanced and cutting-edge strategies for clinical operations.

Sponsor

EVIDENZE is a full-service CRO operating for over 20 years at global scale, supporting with both interventional and observational studies. In addition to the traditional CRO portfolio services, Evidence continues to expand its expertise in innovative and cutting-edge strategies and approaches for improving clinical trials designs and modalities of data collections in RWE setting.

To Join the Webinar

Please register for the event by filling out the Webinar Registration Form. Keep a record of the streaming details of the event that will be shown on your screen at the time of your registration. A Certificate of Attendance will be issued after the webinar. The session will be an hour of Continuing Education.
